TESTIMONIAL

I was attached to DK Outsource from 15<sup>th</sup> March 2010 to 4<sup>th</sup> July 2010. Through my 4 months stay at DK Outsource, I have learnt many new and interesting facts and knowledge about quantity surveying and constructions as well. In addition, I have also met many new people whom I eventually made friends with and I have also learnt how to better communicate through a very different language and a very different communication style.

To start off, I was actually quite nervous when I first stepped into DK's office- everyone looked unfamiliar to me and I realized that almost everyone was from another country and that got me to think about how I should talk to them (I was not very good in English). However, I met up with my mentor, who was the one who guided me all these while. She was the one who have taught me the most and I am very thankful to be under her care.

I have learnt quite a lot from almost everyone at DK. Firstly, I have learnt how to do QS measurements such as architectural and structural drawing measurements from different colleagues. Secondly, I have learnt how to speak better English from some of the other interns at DK. Thirdly, I have learnt and seen how should one go about organizing events or activities and in the process, how should challenges be overcome and how we should all face problems head on. I have also learnt ways that I could motivate myself from one of the intern whom I eventually became good friends with.

Overall, my stay at DK was a very happy and enjoyable one. Not only did I get to renew my knowledge in terms of construction which will help me go a long way when I return home to eventually take off my father's construction firm, I have also made great friends from all over the globe and most importantly, I have gained precious working experience which will allow me to grow and mature over time. I would like to take this chance to thank Ambar, my mentor for her help and care, Mr. Dennis, the managing director of DK for his guidance and for giving me a chance to come to DK and everyone else at DK for making my stay at DK worthwhile. Thanks!

Yours Sincerely,
