TESTIMONIAL

Having 6 weeks attachment in DK Outsource is a great experience. I thought that 6 weeks can be both long and short term depends on what I do. So, I tried to work with zeal. At first, it is difficult for me to learn because of language barrier. However, I can learn many things about QS on the strength of DK family's help. It was a good time to learn about QS that is different way to learn from lecture. Seeing the drawings of school and HBD, I can be familiar with understanding the drawings. I also can understand the way from the measuring to taking off the quantity.

At last week, I also had the opportunity to attend presentation meeting with Erwin. At the site, I felt that site visiting gives me to understand construction more.

Apart gaining experience from the QS, I appreciate what DK family give to me. They shared their experience, food, laughter. Especially in the Christmas party, I was impressed by atmosphere that company was full of laughter.

Internship period was very precious time for me to think about my future also. Lastly, I would like to thank all the staffs in the DK. Thanks.

Yours Sincerely,

Name : Kim Munhyun
