TESTIMONIAL

I am sure that the internship in DK Outsource was a great chance for me to learn more about the industry practices of Singapore which will be highly beneficial to my education.

During internship period, I was involved in several projects, such as Sengkang primary school, HDB in Jurong west area, Bendemeer primary school, and so on. Even though what I had done in these projects was to do some simple measurement under Qs, I could learn from it a lot by means of looking at what and how the Qs were doing. For example, deadline of some project was quite short. It was much shorter than I expected. Then, they managed the time and manpower carefully so that they met the requirements of clients and also the deadline. From these things, I had learnt how important the time and quality management and team work are.

The atmosphere of the workplace was very comfortable because all staffs were very hospitable. So, I could get used to working in DK outsource quickly. I made a lot of precious memories in the company. Especially, I will never forget the things that happened in Christmas party. Lastly, I would like to thank all the staffs for guidance, helpful advice, and kindness.

Thank you.

Yours Sincerely,

Name: Kim Junhwan

Institute: Hanyang University, Korea.
